

Advertising built for Bharat

Card 1 — Horizontal canvas

Your creative plays in full 16:9 landscape — how it was designed to be seen. No cropping, no letterboxing. No other Indian mobile platform offers this.

Card 2 — Bharat targeting

Reach Tier 2, 3, and 4 India by language, city, category, and age. 10+ Indian languages supported, including Hindi, Bhojpuri, Marathi, Tamil, Telugu, Bengali, and Gujarati.

Card 3 — Real views only

Strict view-counting standards. 3 seconds minimum for Meshorts, 30 seconds for Videos. Same user max 2 views per day. Every impression is a genuine engaged viewer.

Card 4 — Managed, not DIY

Our team sets up your campaign, manages inventory, and delivers reporting. No self-serve complexity, no learning curve. Just results.

Ad formats — with tabs

Section headline: Two formats. One platform. Full landscape.

Tab structure (2 tabs only):

Tab 1 — Skippable video ad (default view)

Format: In-feed for Meshorts, pre-roll/mid-roll for Videos. Landscape 16:9. Up to 3 minutes. Skippable after 5 seconds.

Charged only when: Viewer watches 30 seconds or completes the ad.

CPM range: ₹50 – ₹80

Best for: Performance, app installs, e-commerce, brand awareness at scale.

Tab 2 — Non-skippable video ad

Format: Pre-roll and mid-roll for Videos. Landscape 16:9. 6-15 seconds. Cannot be skipped.

CPM range: ₹120 – ₹180

Best for: High-recall brand awareness campaigns, product launches, category-exclusive placements.

5. Targeting options — 4-column grid

Section headline: Reach the exact Bharat you want.

Column 1 — Language

Hindi, English, Bhojpuri, Marathi, Tamil, Telugu, Bengali, Gujarati, Kannada, Punjabi, Malayalam, and more

Column 2 — Geography

State, city, or Tier 2/3/4 clusters. Metro, non-metro, or rural targeting.

Column 3 — Category

Music, cooking, dance, comedy, and 8 more content categories

Column 4 — Demographics

Age band, gender, interests, device type

How MeTubez Ads works — 4-step process

Section headline: Start advertising in a week.

Step 1 — Contact our team

- **NEW:** How did you hear about us? (dropdown: Google / LinkedIn / Press / Referral / Other)

Submit button: Book demo →

Small line below: Our team responds within 24 hours.

10. FAQ section (NEW — RECOMMENDED)

Add a brand-facing FAQ for common objections. This closes deals without a call.

Q: How does MeTubez count views vs YouTube and Instagram?

MeTubez uses strict view-counting standards. For Meshorts (≤30 sec), a viewer must watch at least 3 seconds or 50% of the video. For Videos (>30 sec), 30 seconds or 25%. Same user counts max 2 views per video per 24 hours. Every impression you're charged for is a genuinely engaged viewer.

Q: What's your minimum budget?

Our minimum monthly commitment is ₹1 lakh for direct advertisers. Agency-negotiated deals start at ₹5 lakh monthly commitment for direct account management. Below ₹1 lakh, we onboard you through our self-serve queue with 5-7 day setup.

Q: Do you offer category exclusivity?

Yes. Category-exclusive placements are available on our BrandSafe inventory tier. Contact our team for pricing and availability.

Q: How do you handle brand safety?

Every video on MeTubez is reviewed by our content moderation team before entering ad-eligible inventory. We maintain a whitelist of brand-safe content. You can also request custom category exclusions (e.g., no political content, no religious content) at no extra cost.

Q: When and how do I pay?

We invoice directly. Payment via bank transfer or online transfer. Terms: 30-day payment window from campaign start date. No online payment integration required — our finance team handles everything.

Q: Can I get exportable reports?

Real-time dashboards are always available in your advertiser account. PDF and CSV report exports are on our roadmap for Q1 2027. Until then, our account managers send weekly performance summaries by email for all managed advertisers.

Change: This FAQ is honest about your current limitations (no self-serve, no exportable reports) while framing them as managed-service advantages.
