- Verified MeTuber badge
- Brand deal eligibility

Platinum — Elite MeTuber

Requirement: Top 5% of creators (invite only)

Perks:

- 2.5× base earning rate
- Dedicated creator manager
- Exclusive brand campaigns

FAQ section

Q: How much can I earn on MeTubez?

Your earnings depend on how many valid views your content gets, your tier, and content format (Meshorts vs Videos). Bronze creators start at the base per-view rate. Rates multiply as you progress: Silver (1.3×), Gold (1.7×), Platinum (2.5×). Videos over 30 seconds earn 2-3× more per view than Meshorts because ad attention is deeper. Consistent uploaders can reach ₹100 payout in their first 2-4 weeks.

Q: When do I get paid?

REPLACE current answer with:

You can request a payout the moment your balance hits ₹100. Our team processes payments via UPI or bank transfer within 3-5 working days of your request. There's no upper limit on how much you can withdraw at once, and no cap on how often you can request payouts.

Q: Do I need a minimum subscriber count?

REPLACE current answer with:

No. Unlike other platforms, MeTubez has zero subscriber requirement to start earning. You earn from view 1 of your very first video. Subscriber counts only matter for tier progression (500 subs unlocks Gold tier, for example), but not for basic monetisation.

Q: What languages does MeTubez support?

REPLACE current answer with:

MeTubez supports Hindi, Bhojpuri, Marathi, Tamil, Telugu, Bengali, Gujarati, Kannada, Punjabi, Malayalam, Odia, Assamese, and English — with more Indian languages coming soon. Upload in the language your audience speaks. Content is discovered by language preference, so regional creators reach the right audiences.

Q: How is the tier system calculated?

REPLACE current answer with:

Tier progression is automatic. Bronze is where every MeTuber starts. Silver unlocks after 10 videos published + 5,000 total views. Gold unlocks at 500 subscribers + 50,000 total views. Platinum is invite-only for our top 5% of performers based on consistent uploads, quality metrics, and audience engagement. No manual application needed for Bronze, Silver, or Gold — you progress automatically as you meet each tier's criteria.

Q: Can I use my existing YouTube content?

REPLACE current answer with:

Yes — you fully own your content and can re-upload anywhere. To get the best MeTubez experience, we recommend uploading in landscape 16:9 format because our platform is the world's first horizontal-scrollable video experience. Vertical videos will play but with letterboxing on the sides. If your YouTube content is already landscape, it's a perfect fit for MeTubez.

10. NEW FAQ — Add this question

Add a 7th FAQ that directly addresses the honest view-counting question:

Q: What counts as a valid view?

Answer:

For Meshorts (up to 30 seconds), a valid view means someone watched at least 3 seconds or 50% of your video — whichever is shorter. For Videos (over 30 seconds), a valid view means someone watched at least 30 seconds or 25% of your video — whichever is shorter. Same user max 2 views per video per 24 hours. Views from your own account don't count. These rules ensure your earnings reflect real, engaged viewers. Read our full [View Counting Policy →](#)

How you earn — on Meshorts and Videos

Both content formats live in the same feed. Different lengths, different earnings.

Meshorts (up to 30 seconds): Fast, casual content. Ads run natively between Meshorts. Earn ₹4 to ₹14 per 1,000 valid views (based on your tier).

Videos (over 30 seconds): Long-form content with pre-roll and mid-roll ads. Higher earning rates because attention is deeper. Earn ₹12 to ₹45 per 1,000 valid views (based on your tier).

What counts as a valid view?

- Meshorts: viewer watches at least 3 seconds or 50% of the video
- Videos: viewer watches at least 30 seconds or 25% of the video

Every view counted, every rupee earned — transparent, real-time, no surprises.
